From CHAIRMAN DESK

It is extremely heartening and matter of pride that Asha Public School "making difference to education so that education can make a difference to the world"- True education lies in respecting the individuality and dignity of children. Every child is an evolved soul, who is unique and our task is to shape the mind and character of every student at APS. We have to nurture our children so as to give them enough wind beneath their wings for a perfect flight of their life. I extend my best wishes to the principal, faculty and all the children and thank the parents for their invincible faith and support. I am positive and confident, with our on going initiatives, Asha Public School will continue to shine like a star.

From MANAGER DESK

If i have to sum up Asha Public School in two words..... I would say, it is a school with abundance of warmth and care. The aim of education is not only to teach children theories or laws..... but it is to widen their horizons, inflame their intellect and teach them to think righteously. Our concern is to develop the mind of the child by taking in to account all facets of his/her personality our goal is to tap the best potential of children and transform them into human beings who can contribute to a progressive society. It is our constant endeavour to provide the best quality education to every child as we know that success will never lower its standard to accommodate as but we have to raise ours to achieve it.

From PRINCIPAL DESK

According to me it is said, "little drops of water fills the ocean, similarly little knowledge every day make the student wiser with time. Every day in school teaches the students something new. Everyday we learn something. The child education is an investment. The more positive the School-Parents relationship, the more secure the child will feel. May the children entrusted to our care grow up to be a blessing to the world, with a continuous rapport with children and their parents we are able to achieve the mission of our school, that is...to make every moment count and inspire the highest potential of every child. A small thought ultimately transforms into character. I understand that not all the children will become Gandhi, Mandella, Mother Tresa, Tagore, Einstein or Aryabhatta etc but they should be well prepared to face the challenges of life... as reminiscences of their days and experience at Asha Public School, they should proudly say "yes, it was wonderful, meaningful and really worth it.

WE, AT APS BELIEVE

Teaching and non teaching staff at APS are united in their confidence that all students.

- Have the power to learn.
- Be creative and curious to know more and more.
- Achieve the goal on their own unique design.
- Have limitless capacity to innovate new ideas and understand.
- Have leadership.

We, here create individual learning plan for each student. We ensure that during the crucial years of student's developments, they are provided with learning based training under the guidance of experts.

APS goals to impart children with leadership, self confidence, knowledge around the world, discipline, excellence and a sense of responsibilities.

Education at APS reflects on the holistic development of the children.

OUR OBJECTIVE

The objective of this institution is Education of the whole person. Hence right from the beginning it gears at an integral formation of character i.e., intellectual, moral, spiritual, physical and social of the young who in turn will buildup our nation in justice and truth respecting the dignity of each individual person. For the attainment of this goal the school expects, parents and teachers to share this objective and to co-operate in making it a reality, like.

- To have a sense of right values.
- Courteous towards others, radiating joy and friendliness.
- Ready to strive for excellence in all they do.
- Ready and willing to share their knowledge with others.

ADMISSION AND ELIGIBILITY

Parents / Guardians seeking admission for their children are required to fill in the prescribed application form supplied by the school. No application form will be accepted unless all the entries are fully completed. An interview and assessment will be informed for which the student has to appear with his / her parents / guardians along with required documents.
